

Orb

microlab

Introduction

Designed with the socialite in mind, Orb features a beautiful white gloss finished subwoofer accompanied by two clear speakers that fit perfectly in your office, living room, or even your bedroom. Employing the latest proprietary HC²D sound technology, Orb emits very clear sound at a close range so you don't have to align your speakers to a confined listening position. Clear and powerful sound from its built-in subwoofer cabinet provides deeper base effects perfect for a small home theater environment as it plays better dynamic movie sound effects. Complete with Bluetooth wireless technology, Orb lets you experience high-resolution music from any Bluetooth-enabled device as it comes equipped with aptX and A2DP for a perfect listening experience. Orb is also NFC enabled so you can simply touch the remote control with your smartphone for an immediate listening experience. RCA and Optical connections on the back allow you to connect to any device to enjoy a full-spectrum of multimedia devices.
